### DETAILED ACTION

Final Rejection

#### <u> Claim Rejections - 35 USC § 112</u>

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 15-16, as best understood are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 15-16, as best understood; are confusing and are not clear because claimed limitations, (claims 15-16, said track includes an upper surface that inhibits said movable wall from movement away from the perpendicular position), are not shown in the figures and/or lacks support in the specification and therefore fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These limitations must be shown or the feature(s) canceled from the claim(s). Applicant is requested to go through the application and ensure that the claimed matter has been described in the specification and shown in the drawing in such a way as to convey to one skilled in the art that the

inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

#### Claim Rejections - 35 USC \$ 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 1. Claims 1, 5-7, 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hespelt (6,053,553).

Regarding claims 1, 5-7, 11-14, Hespelt (6,053,553) discloses in Fig. 1-6 the invention as claimed to include a trunk space storage system comprising at least one track 34; and a movable wall 18 disposed in a generally perpendicular position in relation to said track, substantially inhibited from movement away from the perpendicular position, and supported for sliding movement by said track comprising one indent 26 and at least one boss 27, 28 to fit into the indent; a rigid

wall extension 21 extends only as high as highest point of said movable wall as shown in Fig 2.

# Claim Rejections - 35 USC \$ 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 4, 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hespelt (6,053,553) in view of Hunter (4,278,376).

Regarding claims 4, 10, Hespelt (6,053,553) discloses in Fig. 1-14 the invention as claimed.

However, Hespelt (6,053,553) does not disclose tracks.

Hunter (4,278,376) discloses in tracks 12.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention, as disclosed by Hespelt (6,053,553), to include tracks, as disclosed by Hunter (4,278,376), to provide additional tracks in which said movable wall can slides and provide support for the wall.

#### Response to Arguments

3. Applicant's arguments with respect to elected claim have been considered but are most in view of the new ground(s) of rejection.

#### Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

the statutory period for reply expire later than SIX MONTHS from the date of

this final action.
